

Dear Sir or Madam:

As a graduate of the University of Texas at Dallas with a master's degree in Finance and Information Technology & Management, I'm eager to apply for the Investment Banking Analyst position of GrowthPoint. I'm confident that my educational background and past experience have provided me with the skills and experience necessary to excel in the fast-paced environment.

- **M&A and other investment banking focus:** In my Finance degree, I'm focusing on the courses related to investment banking, such as portfolio management, financial modeling, M&A valuation etc. I've finished a M&A project for Juno and Celgene and I'm working as Teaching Assistant for Financial Modeling and Investment last year to help students finishing their projects.
- **High-tech lover:** I have a great passion and interest in technology and continuously tracking all the news in the world. I've invested in Ethereum as well. I think my passion on high-tech industry makes me a great fit on this position
- **Multi-tasking:** I'm working with multiple tasks on college, varying from homework due to teaching assistant jobs. I managed to finish all these tasks successfully every week. I got a highly accomplish from my professors.

I have attached my resume and cover letter detailing academic and technical knowledge. I hope to utilize my knowledge and technical skills at your company and I would appreciate the opportunity to talk with you in the near future.

Thank you for your time and consideration.

Sincerely,
Shihao Ying
